Hutchison's Bargain Store,

The large quantities of goods received the past two weeks here would cause an observant person to wonder how a business that is growing and improving from year to year so rapidly can continue to find new fields for distribution. Low prices, great values and big bargains are phrases that are used so much by stores that get high prices, they have almost ceased to have any influence to draw trade, but when a house backs up all their promises and gives their customers the actual values, the hold for increase is almost unlimited. We might call this our

WHITE SKIN TURNS BLACK.

The Very Strange Effect of a Frost-bite Is Puzzling Pontiac (Mich.) Doctors.

George Brooks, a middle-aged colored man, is the reigning sensation in state medical circles of Michigan. Up to last February Brooks was almost white. One bitter cold night in February last he took a ride into the country. He did not feel any bad effects from the exposure, except in his feet, hands and nose. He thought no more of his night's ride until after a warm night several weeks ago he woke to find himself several shades darker. Since that time he has been continually changing hue until now his skin is nearly the color of ebony. The medical experts of Pontiac, Mich., think that the frostbite on the night of the winter's ride was the cause of his changing color, but why is what is puzzling them.

A NEW SIGHT.

Important Modification That Is Being Made in the Krag-Jorgensen Army Rifles.

Important modifications of the sights of the Krag-Jorgensen army rifle are being made under the direction of Brig. Gen. Buffinton, chief of ordnance. He has advised a light sight, which will enable a marksman to aim directly at the bull's-eye of his target instead of at a point in the lower left-hand corner. The army is also experimenting with a rimfire cartridge and is meeting with fair success. Until these experiments are concluded the navy will not change the caliber of its rifle to that of the army weapon.

WORTH MORE THAN GOLD.

Copper Coinage in China Presents a Most Extraordinary Problem for Adjustment.

The sudden rise in copper is responsible for extraordinary difficulties now confronting the Chinese currency system, according to United States Consul Fowler. The result has been that the cash, or subsidiary Chinese coin, is now worth much more than its token value in silver. In fact the Chinese government is paying 1.35 taels for the copper and zinc coin of which is minted enough cash to make one tael in the aggregate. The consul says that in the end the present great scarcity of cash will cause the issue of silver subsidiary coinage.

TO GET MORE SUGAR.

Increase in That Part of the Ration for Troops in the Philippines to Be Made.

As a result of the reports made by the boards assembled in the Philippines, Cuba and Porto Rico to make recommendations regarding changes in the army rations, only slight additions will be made. The board in Manila recommended that dried fruits be added to the ration, but Gen. Weston had anticipated this by the shipment of a large quantity of this fruit to Manila. It is understood that the ration of sugar will be increased, men serving in the tropics seeming to desire more sweets than those serving in the north.

Your Choice of Climates.

While the east was sweltering, with the thermometer close to the century mark, Salt Lake City and its environs were being visited with a frost severe enough to kill nearly all the growing vegetable crops.

GET DOWN TO CAUSES.

Marietta People Reason Easily and Consistently Nowadays.

In former times liniments and plasters sold over all internal remedies, because people mistook effects for diseases, and attacked a pain where they found it. Temporary relief convinced them they were right, and so they laid a return of the pain to a return of the complaint, when in fact the disease was there all the time. Backache is not an aching of the back, but an aching of the kidneys, and remedies must reach the kidneys and be perfect in their work at that, before permanent relief is secured. Doan's Kidney Pills are perfect in their work and permanent in their cure. A backache gives way at once because the kidneys resume their normal functions and there is nothing to ache. There is nothing so hard to combat as the evidence of our senses, and yet all who believe us the subject of backache are glad they did because of the cure.

Mr. Rudolph Radig, of Eighth street near city limit, says: I am a painter by trade and I think the chemicals used in my work are unhealthy. I worked for a long time and could not notice the bad effect more while working in a closed room, than I could when working in the open air. My kidneys bothered me about three and a half years. At times I suffered severely, was unable to work, and at times was off as much as three weeks, part of the time being unable to get out of bed, having such dull, steady twinges across the loins, and sharp twinges of pain when I attempted to move. I was examined and treated by a physician. While he stated that my kidneys were affected, he failed to do anything for me. Then I tried other medicines and obtained the same results. I got a box of Doan's Kidney Pills at W. H. Syer's drug store on Front street. They did not only relieve me after taking a few doses, but I believe they made a cure of it. For I worked hard all the time and had no return of it. Doan's Kidney Pills are a wonder.

Doan's Kidney Pills are sold by all dealers. Price 50 cents per box. Sold by mail on receipt of price. Foster-McClellan Co., Buffalo, N. Y., Sole agents for the U. S. Remember the name Doan's and take no other.
